

# CHANGING THE POINT OF VIEW

The following is a passage from *A Tree's Life*. Change it to the third person.

I'm a honey bee, always buzzing around in a busy hive. My job is to collect nectar from flowers, which we turn into yummy honey. Our hive is like a big team, and we use a special dance to tell each other where to find the best nectar.

Besides making honey, we also help flowers turn into fruits by spreading pollen around. It's like a big, important job that helps nature stay balanced. Even though we're small, our work is super important for the world around us. So, I'm just a little bee, but I play a big role in keeping things sweet and buzzing!
