

# COLOR THEM AWAY

Color the boxes with facts in **yellow**, and the boxes with opinions in **orange**.

The Earth revolves around the sun.	Pizza is the best food ever.	Dogs make better pets than cats.	The Great Wall of China is visible from space.
Summer is the most enjoyable season.	Water boils at 212 degrees Fahrenheit.	Soccer is the most exciting sport to watch.	Tigers are the largest cats in the world.
The capital of France is Paris.	Chocolate chip cookies are delicious.	The human body has 206 bones.	Sleeping on the weekends is good for health.
A party without music is boring.	The sky should always remain blue.	The moon orbits around the Earth.	The Amazon Rainforest is the largest rainforest in the world.
