

# LET'S PRACTICE FACT AND OPINION

Read the passage and identify three facts and three opinions from it.

I have a pet rabbit named Fluffy. He has soft, white fur and the most adorable floppy ears. Fluffy loves to hop around in our backyard and nibble on fresh green grass. Rabbits are the best pets because they are gentle and easy to take care of. I think Fluffy is the cutest animal in the world, even cuter than kittens or puppies!

Every morning, I give Fluffy fresh carrots to eat. Did you know that rabbits love carrots? It's one of their favorite foods! Fluffy also enjoys snuggling up in his cozy hutch at night. I believe rabbits are intelligent creatures because Fluffy knows his name and comes running when I call him.

One interesting fact about rabbits is that they have a special way of communicating. They thump their hind legs on the ground to warn others when they sense danger. It's amazing how animals like Fluffy have their own ways of staying safe in the wild.

I love spending time with Fluffy, playing games with him, and simply watching him hop around. Rabbits are truly fascinating animals, and I feel lucky to have Fluffy as my furry friend.
