

# LET'S PUNCTUATE

Read the passage about a tiger shark and punctuate it correctly.

Hi Tiger Shark here I want a chance to set the record straight There is a rumor that I have eaten some funny things It's true But do you really think it's my fault You see, tiger sharks are predators REALLY good predators We like to eat fish, seals, turtles, jellyfish, squid, crabs pretty much anything we can catch What do you like to eat

Not everything is understood about the narwhal yet, but dentists and other marine scientists continue to study its tusk in hopes that it will help us learn how to strengthen our own teeth

The secret to our success is to chomp first and ask questions later Other sharks are pickier, but if a tiger shark sees something in the water SNAP If it moves, we WILL eat it How else do you think we have stayed at the top of the food chain for millions of years

But now it's causing us a bit of a problem That's because the ocean is full of weird stuff these days Sometimes when I go after a shiny fish, it turns out to be a license plate. Bleh But really, what's a license plate doing down here If it's in the ocean, don't you think it should be something I can eat By the way, what is the weirdest thing you have eaten

Don't mind me; I'll continue hunting in the stupendously efficient way tiger sharks have always hunted one chomp at a time Instead of making fun of us for eating weird stuff, why don't you work on getting all of that weird stuff out of our lunchroom
