

# Reach the Beach

Connect each word went to get through the maze.

A maze puzzle where the goal is to connect the word "went" to reach the beach. The maze is composed of several paths and dead ends. The words "went" and "am" are scattered throughout the maze. The path that leads to the beach starts from the top-left "went" and follows a series of turns through the maze, avoiding "am" words and other dead ends. The beach is located at the bottom-right corner of the maze.
