

PRO-NOUN IT!

Read the passage. Circle all the pronouns and underline their corresponding antecedents.

The plants in the school's garden aren't growing well. They need more than just water and sunlight for nourishment. So, all the students in my class came up with a plan.

For a science project, we are going to collect ladybugs. Buc-Buc says that they can be helpful to plants. He read that ladybugs help plants grow by eating unwanted insects.

Do you know where to find ladybugs? We can ask Leafel for some help. She knows a lot about nature and is always happy to help. Maybe she is in the park.
