

SUPPORT THE MAIN IDEA!

Read the story given below answer the questions that follow.

One may not realize that the rainforests are brimming with incredible lives and their secrets. It's home to colorful toucans with vibrant beaks and stealthy jaguars that sneak under the trees. If one is lucky, they may watch the clever pitcher plant catching insects for food. Other organisms, such as the towering kapok tree, provide shelter to an entire community of furry creatures. Each species helps balance this vibrant ecosystem.
