

# TEXT STRUCTURE: SEQUENCING

Read the given passage and complete the sequence to answer the question.

Polar bears are excellent hunters. One of their favorite animals to hunt are seals. First, they use their sense of smell to find seals. Seals hunt underwater but have to surface to breathe. Thus, polar bears wait for seals to surface for air. They sometimes wait for hours. Polar bears are very patient hunters. Then, when the seal comes up for air, the polar bear grabs it.

How do polar bears hunt?
