THE FUTURISTIC COMMUNICATION

Let's design a futuristic communication tool. Select the options and then draw your tool on the next page.

1. What would be the shape of your communication tool?
   a. A square tablet
   b. A round robot
   c. A rectangle with a big screen
   d. An oval-shaped device

2. What would be the color of your communication tool?
   a. Bright red like a firetruck, to stand out
   b. Sunny yellow like a smiley face
   c. Cool blue like the sky on a clear day
   d. Playful purple to make you smile

3. How would you like to send messages to your friends?
   a. By pressing big, colorful buttons with emojis
   b. By drawing pictures and sending them with a touch
   c. By talking into a microphone and sending your voice
   d. By typing on a keyboard with colorful letters

4. What special feature would your communication tool have?
   a. A camera to take pictures and send them as messages
   b. A big button for sending "virtual hugs" to friends
   c. A weather button to check the forecast before playing outside
   d. A "magic" button that turns drawings into animated messages

5. How would you like to receive messages from your friends?
   a. With a happy jingle that plays when you get a message
   b. With a cute animated character that pops up on the screen
   c. With a funny joke or riddle that makes you giggle
   d. With a bright light that blinks when you have a new message
