

TRAIT-O-TIME!

Play this fun game with your friends or family!

Rules and steps:

1. You can take a printout of the game to have a closer look at the images and prompts.
2. You can take printouts of the avatars or even make your own.
3. Roll a dice or simply close your eyes and count to 6 until the other opponent asks you to start and stop.
4. You can only start the game or move around if you get an even number(2, 4, 6, 8, 10, 12, 14, 16). If you get an odd number, you need to wait for your turn in the next round.
5. If you get an even number, you need to place your avatar in that place and write or describe whatever is asked in the prompt (written on the previous odd numbered box) about the image.
6. If your answer is correct or matches with the given answer, you proceed to the next round of the game.
7. If your answer is incorrect, you move back to the previous odd numbered box.
8. The first player to reach the box that says *End* wins the game.

Begin

1 Write the irregular form of the verb in the past tense

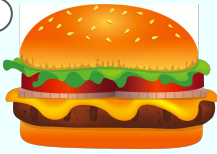

2

3

Describe the lady using an adjective

6
