

INFERENCES AND PREDICTIONS

Answer the following questions based on your understanding of *inferences* and *predictions*.

1 Drawing an inference means

- using what we know from the key details in the text.
- thinking about our own personal experiences.
- putting events in the correct order.

2 Your soccer team has been practicing hard, and you have a big game against a strong opponent next weekend. What do you predict will happen during the game?

- Your team will be victorious because they have been practicing new strategies.
- Your team will pull out of the tournament.
- Your team will lose the big game because of overconfidence.

3 Your teacher has just announced that you'll have a pop quiz today. The questions will be based on the topics you have been learning about for the past two weeks.

Your Prediction: _____

4 You find a crumpled piece of paper with the words "I'm sorry" on your desk at school. What can you infer about the person who left this note?

Your inference: _____
