4-Digit Division Festival

Your community is planning a fun fair, and you're in charge of distributing items equally.
Answer the following questions.

1. Your community received 2,376 tickets for the festival. If there are 44 volunteers selling tickets, how many tickets does each volunteer sell?

   Answer: _____

2. There are 4,752 festival flyers that need to be distributed equally among 33 neighborhoods. How many flyers does each neighborhood get?

   Answer: _____

3. The festival organizers prepared 5,880 food vouchers. If each food stall is to receive an equal number of vouchers, and there are 28 food stalls, how many vouchers does each stall get?

   Answer: _____

4. There are 7,128 volunteer badges that need to be distributed evenly among 54 teams of volunteers. How many badges will each team receive?

   Answer: _____
