

Add with 10 using 10-frames

Find the sum using the 10-frames.

A 10-frame grid filled with 10 purple birds. Below it is a large black plus sign. To the right is another 10-frame grid with 6 birds. Below the first grid is a box containing the number 10. Below the second grid is a box containing the number 6. To the right of the plus sign is a box for the answer.

$$\boxed{10} + \boxed{6} = \boxed{\quad}$$

A 10-frame grid filled with 10 red butterflies. Below it is a large black plus sign. To the right is another 10-frame grid with 8 butterflies. Below the first grid is a box containing the number 10. Below the second grid is a box containing the number 8. To the right of the plus sign is a box for the answer.

$$\boxed{10} + \boxed{8} = \boxed{\quad}$$

A 10-frame grid filled with 10 orange fish. Below it is a large black plus sign. To the right is another 10-frame grid with 10 fish. Below the first grid is a box containing the number 10. Below the second grid is a box containing the number 10. To the right of the plus sign is a box for the answer.

$$\boxed{10} + \boxed{10} = \boxed{\quad}$$

A 10-frame grid filled with 10 red hexagons. Below it is a large black plus sign. To the right is another 10-frame grid with 2 hexagons. Below the first grid is a box containing the number 10. Below the second grid is a box containing the number 2. To the right of the plus sign is a box for the answer.

$$\boxed{10} + \boxed{2} = \boxed{\quad}$$
