# Cooking Division

Solve the following word problems.

1 Chef Anna made 4,536 cookies for a baking competition. If she packed them into boxes, each containing 8 cookies, how many boxes did she use?

\_\_\_\_\_

2 In a restaurant, 9,876 litres of soup were prepared. If each serving is 2 litres, how many servings of soup were made?

\_\_\_\_\_

3 A bakery has 5,677 loaves of bread. If they are packed in bags of 7, how many bags will there be?

\_\_\_\_\_

4 A caterer prepared 6,534 sandwiches for a party. If each plate can hold 6 sandwiches, how many plates did the caterer use to serve all the sandwiches?

\_\_\_\_\_

5 A chef has 3,456 eggs. If he uses 4 eggs for each omelette, how many omelettes can he make?

\_\_\_\_\_

6 A restaurant served 7,653 litres of coffee in a month. If each cup of coffee uses 3 litres, how many cups of coffee were served in that month?

\_\_\_\_\_

7 A cake shop baked 8,370 cupcakes. If each box can hold 5 cupcakes, how many boxes did they use?

\_\_\_\_\_

8 A pizza place made 9,873 pizzas for a festival. If each box can hold 9 pizzas, how many boxes did they need?
