

Thanksgiving Division

Solve the following word problems.

1 A food bank received 2,415 cans for Thanksgiving donations. If they divide them equally among 7 shelters, how many cans will each shelter receive?

2 A local grocery store sold 1,148 pounds of turkey for Thanksgiving. If the store sold the same amount of turkey to each of its 7 branches, how many pounds of turkey did each branch get?

3 A parade committee bought 7,452 feathers to decorate Thanksgiving parade floats. If they distribute them equally among 9 floats, how many feathers will each float get?

4 A library received 4,184 Thanksgiving-themed books. If they evenly distribute them among 8 branches, how many books will each branch receive?

5 A corporation ordered 1,170 servings of mashed potatoes for their Thanksgiving celebration. If they distribute them equally among 6 banquet halls, how many servings will each hall have?

6 A company ordered 1,224 muffins for their annual Thanksgiving luncheon. If they distribute them evenly among 9 departments, how many muffins will each department receive?
