# Estimate Fraction Sum

Plot each fraction on the number line and identify if it is closer to 0, half or 1. Use this to estimate the sum.

$$\frac{9}{10} \ + \ \frac{2}{5} \ \simeq \ 1\frac{1}{2}$$

0     $\frac{1}{2}$ 1

$$\frac{2}{9} \ + \ \frac{7}{8} \ \simeq \ 1$$

0     $\frac{1}{2}$ 1
