

Estimate the Sum Using Benchmark Fractions

Compare the addends with the benchmark fraction. Estimate if the sum is greater than, less than or equal to 1.

$$\frac{9}{20} \quad \square \quad \frac{1}{2}$$

$$\frac{9}{20} + \frac{9}{25}$$

$$\frac{9}{25} \quad \square \quad \frac{1}{2}$$

$$\frac{3}{5} \quad \square \quad \frac{1}{2}$$

$$\frac{3}{5} + \frac{3}{4}$$

$$\frac{3}{4} \quad \square \quad \frac{1}{2}$$

$$\frac{3}{7} \quad \square \quad \frac{1}{2}$$

$$\frac{3}{7} + \frac{3}{8}$$

$$\frac{3}{8} \quad \square \quad \frac{1}{2}$$
