

Subtract from 10 Strategy

Find the difference using “subtract from 10” strategy.

$$14 - 9 = \square$$

$$\begin{array}{r} 10 \\ \hline \end{array} - \begin{array}{r} 9 \\ \hline \end{array} = \underline{\hspace{2cm}}$$

$$\begin{array}{r} 4 \\ \hline \end{array} + \begin{array}{r} \\ \hline \end{array} = \underline{\hspace{2cm}}$$

$$16 - 5 = \square$$

$$\begin{array}{r} 10 \\ \hline \end{array} - \begin{array}{r} 5 \\ \hline \end{array} = \underline{\hspace{2cm}}$$

$$\begin{array}{r} \\ \hline \end{array} + \begin{array}{r} \\ \hline \end{array} = \underline{\hspace{2cm}}$$

$$12 - 7 = \square$$

$$\begin{array}{r} \\ \hline \end{array} - \begin{array}{r} \\ \hline \end{array} = \underline{\hspace{2cm}}$$

$$\begin{array}{r} \\ \hline \end{array} + \begin{array}{r} \\ \hline \end{array} = \underline{\hspace{2cm}}$$

$$11 - 4 = \square$$

$$\begin{array}{r} \\ \hline \end{array} - \begin{array}{r} \\ \hline \end{array} = \underline{\hspace{2cm}}$$

$$\begin{array}{r} \\ \hline \end{array} + \begin{array}{r} \\ \hline \end{array} = \underline{\hspace{2cm}}$$
