

Commutative Property

Find the first fact and use it to find the next fact.

$$2 \times 6 = \square$$

$$6 \times 2 = \square$$

$$5 \times 8 = \square$$

$$8 \times 5 = \square$$

$$3 \times 7 = \square$$

$$7 \times 3 = \square$$

$$5 \times 7 = \square$$

$$7 \times 5 = \square$$

$$2 \times 9 = \square$$

$$9 \times 2 = \square$$

$$3 \times 8 = \square$$

$$8 \times 3 = \square$$
