

Volume of Composite Shapes

Find the volume of the composite shapes shown below.

$$\text{Volume of A} = \underline{\quad\quad} \text{ in}^3$$

$$\text{Volume of B} = \underline{\quad\quad} \text{ in}^3$$

$$\text{Volume of A} + \text{Volume of B} = \underline{\quad\quad} \text{ in}^3$$

$$\text{Volume of C} = \underline{\quad\quad} \text{ ft}^3$$

$$\text{Volume of D} = \underline{\quad\quad} \text{ ft}^3$$

$$\text{Volume of C} + \text{Volume of D} = \underline{\quad\quad} \text{ ft}^3$$
