

Equivalent Fractions

Look at the shaded fractions and tick all the fractions that are equivalent.

Three fraction models are shown in a rounded rectangular box:

- Model 1: A rectangle divided into 4 equal horizontal strips, with the second strip from the top shaded purple.
- Model 2: A rectangle divided into 4 equal horizontal strips, with the top and bottom strips white, and the two middle strips shaded purple.
- Model 3: A rectangle divided into 4 equal vertical strips, with the second strip from the left shaded purple.

Three fraction models are shown in a rounded rectangular box:

- Model 1: A rectangle divided into 3 equal horizontal strips, with the top and bottom strips shaded purple.
- Model 2: A rectangle divided into 3 equal horizontal strips, with the middle and bottom strips shaded purple.
- Model 3: A rectangle divided into 3 equal horizontal strips, with the top and middle strips shaded purple.
