

Money Expressions

Match each scenario with the correct expression.

A teacher shared \$40
equally among 8 students.
How much money did each
student receive?

$$\$2 \times 40$$

One loaf of bread costs \$2.
How much will 40 loaves of
bread cost?

$$\$40 \div 8$$

One bag of cherries costs \$8.
How much will 40 bags of
cherries cost?

$$\$40 \div 2$$

A pack of 2 shirts costs \$40.
How much does each shirt
cost?

$$\$8 \times 40$$
