

## Doubling and Halving

Use doubling and halving to multiply.

1

$$\begin{array}{c}
 \text{Double} \\
 \boxed{35} \times \boxed{8} = \boxed{\phantom{00}} \times \boxed{\phantom{00}} = \boxed{\phantom{000}} \\
 \text{Half}
 \end{array}$$

2

$$\begin{array}{c}
 \text{Double} \\
 \boxed{45} \times \boxed{6} = \boxed{\phantom{00}} \times \boxed{\phantom{00}} = \boxed{\phantom{000}} \\
 \text{Half}
 \end{array}$$

3

$$\begin{array}{c}
 \text{Double} \\
 \boxed{55} \times \boxed{6} = \boxed{\phantom{00}} \times \boxed{\phantom{00}} = \boxed{\phantom{000}} \\
 \text{Half}
 \end{array}$$

**TIP:** Double the number that has a 5 in the ones place and halve the other number.
