Make a Model to Multiply (B)

Make an array using dots to represent the word problem and write its related multiplication expression.

James planted 7 columns of roses in his garden. Each column has 4 roses.

How many roses are there?

Array:

Total roses : ☐ × ☐

Solve : ☐ **roses**

Emma baked cookies in 6 rows. Each row has 3 cookies.

How many cookies did Emma bake?

Array:

Total cookies : ☐ × ☐

Solve : ☐ **cookies**
