

Multiply and Check

Find the fact using the strategy given on the left and then check your answer using the strategy given on the right.

$$6 \times 3 = \square$$

Commutative Property

$$6 \times 3 = \square \times \square$$

$$= \square$$

Distributive Property

$$6 \times 3 = \square + \square$$

$$= \square + \square$$

$$= \square$$

$$4 \times 5 = \square$$

Skip Count/Finger Model
