

Skip Count by 5

Players will pass the ball by skip counting by 5. Draw lines to complete the passes between players.

A basketball player with jersey number 10 is passing a ball to a player with jersey number 15. The path of the pass is shown by two orange arrows: one from the player's hand to a dot next to jersey 15, and another from that dot to a dot next to jersey 20. There are other jerseys with numbers 25, 35, 45, 30, and 40 scattered around.
