

Simplify the Addition Sentence

Change the first addend to a multiple of 10. Use the opposite operation to find the second addend.

$$\boxed{38} + \boxed{6} = \boxed{40} + \boxed{4}$$

+2
-2

$$\boxed{51} + \boxed{7} = \boxed{50} + \boxed{}$$

-1

$$\boxed{77} + \boxed{8} = \boxed{} + \boxed{}$$

+3

$$\boxed{42} + \boxed{5} = \boxed{} + \boxed{}$$
