Henry wants to pack 30 apples in boxes. Each box can hold 4 apples each. How many boxes will he require to pack all the apples?

4	8	12	16	20	24	28	32
---	---	----	----	----	----	----	----

$$4 \times 7 = 28$$

28 apples can be packed in 7 boxes.  
 The remaining 2 apples can be packed in 8th box.  
 So, **8 boxes** are required to pack all the apples.

Lisa has 16 ribbons. She uses 3 ribbons to decorate a flower pot. How many flowers pots can she decorate?

A teacher wants to place 75 books in shelves. Each shelf can hold 9 books. How many shelves should she use to place all the books?
