

Winter Subtraction

Solve the following word problems.

1 During a winter sale, a store had 18 scarves in stock. If 9 scarves were sold, how many scarves are left in the store?

2 A group of children made 14 snow angels in the morning. After a snowball fight, 8 of the snow angels got covered in snow. How many snow angels are still visible?

3 A snowstorm covered a town with 16 inches of snow. If 8 inches melted by the next day, how much snow remains on the ground?

4 There are 12 icicles hanging from the roof. After a windy night, 6 icicles fell down. How many icicles are there now?

5 Liam has 15 snowman stickers. He uses 9 stickers for his art project. How many stickers does Liam have left?

6 Sophia has 13 pieces of winter clothing. She donates 4 pieces to charity. How many pieces of winter clothing does Sophia have now?

7 In a winter play, there were 14 penguins on stage. If 6 waddled off during the performance, how many penguins are left?
