

Subtract 2-Digit Numbers from 3-Digit Numbers

Use place value understanding to find the difference of the given numbers.

$$\begin{array}{|c|c|c|} \hline 1 & 7 & 9 \\ \hline \end{array} - \begin{array}{|c|c|} \hline 2 & 6 \\ \hline \end{array} = \begin{array}{|c|c|c|} \hline & & \\ \hline \end{array}$$

$$\begin{array}{|c|c|c|} \hline 6 & 5 & 8 \\ \hline \end{array} - \begin{array}{|c|c|} \hline 3 & 3 \\ \hline \end{array} = \begin{array}{|c|c|c|} \hline & & \\ \hline \end{array}$$

$$\begin{array}{|c|c|c|} \hline 7 & 6 & 1 \\ \hline \end{array} - \begin{array}{|c|c|} \hline 4 & 5 \\ \hline \end{array} = \begin{array}{|c|c|c|} \hline & & \\ \hline \end{array}$$

$$\begin{array}{|c|c|c|} \hline 4 & 2 & 8 \\ \hline \end{array} - \begin{array}{|c|c|} \hline 7 & 0 \\ \hline \end{array} = \begin{array}{|c|c|c|} \hline & & \\ \hline \end{array}$$

$$\begin{array}{|c|c|c|} \hline 9 & 3 & 0 \\ \hline \end{array} - \begin{array}{|c|c|} \hline 8 & 6 \\ \hline \end{array} = \begin{array}{|c|c|c|} \hline & & \\ \hline \end{array}$$
