

Subtract Using Place Value Cards

Use place value understanding to subtract the numbers.

$$\begin{array}{r} \boxed{5} \boxed{9} \\ \diagdown \quad \diagup \\ \boxed{} \quad \boxed{} \end{array} - \begin{array}{r} \boxed{2} \boxed{0} \\ \end{array} = \boxed{} \boxed{}$$

$$\begin{array}{r} \boxed{4} \boxed{4} \\ \diagdown \quad \diagup \\ \boxed{4} \boxed{0} \quad \boxed{} \end{array} - \begin{array}{r} \boxed{3} \boxed{2} \\ \diagdown \quad \diagup \\ \boxed{} \quad \boxed{2} \end{array} = \boxed{} \boxed{}$$

$$\begin{array}{r} \boxed{7} \boxed{6} \\ \diagdown \quad \diagup \\ \boxed{} \quad \boxed{} \end{array} - \begin{array}{r} \boxed{2} \boxed{5} \\ \diagdown \quad \diagup \\ \boxed{} \quad \boxed{} \end{array} = \boxed{} \boxed{}$$

$$\begin{array}{r} \boxed{8} \boxed{2} \\ \diagdown \quad \diagup \\ \boxed{} \quad \boxed{} \end{array} - \begin{array}{r} \boxed{4} \boxed{5} \\ \diagdown \quad \diagup \\ \boxed{} \quad \boxed{} \end{array} = \boxed{} \boxed{}$$
