

# Understand Fraction Division

Divide the given fractions and show your working.  
The first one has been done for you.

$$\frac{3}{4} \div \frac{1}{2}$$

Keep  $\frac{3}{4}$       Change  $\times$       Flip  $\frac{2}{1}$       =  $\frac{\square}{\square}$

$$\frac{5}{9} \div \frac{2}{3}$$

Keep  $\frac{5}{9}$       Change  $\times$       Flip  $\frac{3}{2}$       =  $\frac{\square}{\square}$

$$\frac{3}{8} \div \frac{2}{5}$$

Keep  $\frac{3}{8}$       Change  $\times$       Flip  $\frac{5}{2}$       =  $\frac{\square}{\square}$
