

## Add Unlike Fractions and Mixed Numbers

Add and write the correct sum.

$$\boxed{3} \frac{\boxed{1}}{\boxed{2}} + \frac{\boxed{2}}{\boxed{3}} = \boxed{\phantom{00}} \frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}} = \boxed{\phantom{00}} \frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$$

$$\boxed{2} \frac{\boxed{4}}{\boxed{5}} + \frac{\boxed{1}}{\boxed{2}} = \boxed{\phantom{00}} \frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}} = \boxed{\phantom{00}} \frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$$

$$\boxed{1} \frac{\boxed{1}}{\boxed{2}} + \frac{\boxed{1}}{\boxed{6}} = \boxed{\phantom{00}} \frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}} = \boxed{\phantom{00}} \frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$$

$$\boxed{4} \frac{\boxed{3}}{\boxed{4}} + \frac{\boxed{4}}{\boxed{5}} = \boxed{\phantom{00}} \frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}} = \boxed{\phantom{00}} \frac{\boxed{\phantom{00}}}{\boxed{\phantom{00}}}$$
