

Use Given Facts to Divide

Use the given division facts to divide.

$300 \div 5 = 60$

$574 \div 7 = 82$

$400 \div 8 = 50$

$279 \div 9 = 31$

$702 \div 9 = 78$

$484 \div 4 = 121$

$303 \div 5 = \square \text{ R } \square$

$399 \div 8 = \square \text{ R } \square$

$280 \div 9 = \square \text{ R } \square$

$570 \div 7 = \square \text{ R } \square$

$710 \div 9 = \square \text{ R } \square$

$486 \div 4 = \square \text{ R } \square$
