

Multiply Fractions

Fill in the missing numbers to complete the multiplication.

$$\frac{1}{2} \times \frac{\square}{3} = \frac{1}{6}$$

$$\frac{5}{6} \times \frac{3}{\square} = \frac{15}{42}$$

$$\frac{3}{4} \times \frac{2}{\square} = \frac{6}{20}$$

$$\frac{1}{4} \times \frac{1}{\square} = \frac{1}{8}$$

$$\frac{2}{3} \times \frac{4}{\square} = \frac{8}{9}$$

$$\frac{2}{10} \times \frac{\square}{5} = \frac{8}{50}$$
