

Multiplicative Comparison

Write a multiplication equation for each statement.

1.

Statement	Equation
a. 60 feet is 10 times the height of 6 feet.	$\square \times \square = \square$
b. 20 hours is 5 times longer than 4 hours.	$\square \times \square = \square$
c. 8 times as many as 6 pages is 48 pages.	$\square \times \square = \square$
d. 4 times as heavy as 10 pounds is 40 pounds.	$\square \times \square = \square$
